LET'S START PLANNING YOUR BRAINWV FUTURE TODAY!

Brainwv: Your Partner in Automation and
Innovation

Whether you're launching a new venture,
optimizing operations, or scaling your
business, Brainwave is here to support
you at every stage with cutting-edge
automation solutions and expert
guidance.

BRAINWV

At Brainwv, we drive growth by providing
strategic automation insights and
customized technological solutions. Our
expertise ensures efficiency, innovation,
and sustainable success for your
business.

● Take the first step with us!

ABOUT US

Brainwv was founded in 2025 by Miss Nishu and Mr. Prince Jha while they were third-year B.Tech students in Electrical and Electronics Engineering. Their expertise led to a successful inaugural project at Subros Private Limited, where they resolved issues with a belt conveyor and airflow machine using PLC programming. Within the first month, Brainwave completed projects for three major companies—Subros, Mahindra, and Falcon Autotech—demonstrating its efficiency and commitment to high-quality automation solutions.

OUR MISSION

Brainwv is committed to creating value for customers, employees, and society by delivering high-quality products and services. We prioritize trust, innovation, and excellence to help our clients achieve their business goals.

WHY CHOOSE BRAINWV?

At BrainWV, we specialize in providing cutting-edge automation solutions that empower businesses to optimize their operations, enhance productivity, and reduce costs. With our team of experts and state-of-the-art technology, we deliver tailored solutions that meet the unique needs of our clients.

PERSONALIZED

At Brainwv, we recognize that every client has distinct operational challenges. Our personalized approach ensures that each automation solution is customized to align with your specific goals, maximizing efficiency and growth.

OUR VISION

Brainwv aims to be a leading force in automation and technology, delivering high-quality solutions that drive business success and innovation.

ADVANCED AUTOMATION & PROFESSIONAL SERVICES

BrainWV Autotech delivers cutting-edge industrial automation and IT solutions, specializing in PLC programming, HMI development, SCADA integration, and AI-driven CCTV surveillance. We offer AC compressor & coolant manufacturing, cybersecurity, hardware repairs, and network solutions to enhance operational efficiency. Our expertise extends to cloud computing, data protection, and IT infrastructure. Additionally, we provide IT training, automation workshops, and admission guidance for career counseling. Our HR payroll and compliance solutions streamline salary processing, tax deductions, and regulatory filings, ensuring seamless business operations with legal compliance and financial accuracy.

INDUSTRIAL AUTOMATION TRAINING & SEMINARS

We offer expert-led workshops and seminars on industrial automation, covering PLC programming, HMI, SCADA, and DFD design. Our training programs provide hands-on experience and industry insights, helping professionals and businesses stay ahead in automation technology.

PRECISION WEIGHING SOLUTIONS FOR OPTIMIZED EFFICIENCY

BrainWV Autotech provides advanced weighing solutions for industrial and commercial use, ensuring accuracy and efficiency. We specialize in digital scales, load cell integration, automated weighing systems, and real-time monitoring. Our solutions support manufacturing, logistics, and retail, enhancing productivity and compliance. With expert calibration, maintenance, and cutting-edge technology, we help businesses reduce errors and optimize operations for seamless performance.

SECURE TECH

BrainWV Autotech provides advanced CCTV security solutions designed for homes, offices, and industries. Our systems include high-definition cameras, AI-powered surveillance, night vision, motion detection, and remote monitoring to ensure 24/7 security. With cloud storage, smart alerts, and seamless integration with existing networks, we enhance safety and accessibility. Our focus on customized security setups and scalable solutions makes us a trusted partner in modern surveillance technology.

PRINTCARE

PrintCare offers comprehensive printer solutions, including installation, repair, and cartridge refilling. We specialize in servicing laser, inkjet, and dot matrix printers, ensuring optimal performance with printhead cleaning, roller adjustments, and firmware updates. Our cost-effective maintenance solutions enhance printer longevity and efficiency, reducing downtime for both businesses and individuals.

AUTOMATION SOLUTION

We specialize in PLC programming and installation, ensuring seamless industrial automation. Our services include HMI development, SCADA integration, and DFD design, optimizing process control and efficiency. With expertise in industrial automation, we deliver customized solutions for enhanced productivity and system reliability.

COOLSYS

CoolSys specializes in HVAC and refrigeration solutions, offering AC installation, repair, and coolant refilling. Our high-performance coolants enhance heat dissipation, prevent overheating, and improve system longevity. Designed for industrial, commercial, and automotive applications, our solutions ensure energy efficiency and optimal cooling performance.

HR PAYROLL & COMPLIANCE SOLUTIONS

We provide comprehensive HR payroll and compliance services, ensuring accurate salary processing, tax deductions, and statutory compliance. Our expertise covers PF, ESI, labor laws, and regulatory filings, helping businesses streamline HR operations while maintaining legal compliance.

IT SECTOR TRAINING & SEMINARS

We provide workshops and seminars on IT technologies, including web development, software programming, cybersecurity, cloud computing, and automation. Our expert-led sessions offer hands-on training and industry insights, helping professionals and students enhance their technical skills and career growth.

ADMISSION GUIDANCE SERVICES

We offer expert admission guidance for students seeking entry into engineering, IT, and other professional courses. Our services include career counseling, college selection, application assistance, and interview preparation, ensuring a smooth and informed admission process.

CORPORATE COLLABORATIONS & INDUSTRY EXPOSURE

Corporate Collaborations & Industry Exposure

Brainwv fosters strong industry partnerships, connecting businesses with cutting-edge automation solutions and emerging technologies. Through strategic collaborations, we provide hands-on industry exposure, enabling professionals to stay ahead in a rapidly evolving tech landscape.

MAHINDRA

Corporate Collaborations & Industry Exposure

Brainwv fosters strong industry partnerships, connecting businesses with cutting-edge automation solutions and emerging technologies. Through strategic collaborations, we provide hands-on industry exposure, enabling professionals to stay ahead in a rapidly evolving tech landscape.

ACCURA TECHNOLOGIES

Accura Technologies is a renowned company specializing in precision engineering and advanced manufacturing solutions. Brainwave collaborated with Accura to implement cutting-edge automation, enhancing efficiency and optimizing industrial processes. This partnership reflects our commitment to delivering innovative and high-quality technological solutions.

SUBROS

Subros is a leading manufacturer of thermal products for automotive applications, specializing in air conditioning systems for passenger and commercial vehicles. Brainwave successfully collaborated with Subros on its inaugural project, resolving belt conveyor and airflow machine issues through advanced automation and PLC programming, showcasing our expertise in industrial solutions.

TAJ ELECTRICALS

Taj Electricals is a well-established company specializing in electrical solutions and infrastructure development. Brainwave partnered with Taj Electricals to implement automation-driven enhancements, improving efficiency and optimizing electrical systems for seamless operations. This collaboration underscores our expertise in industrial automation and smart technology solutions.

SHO SHIN TRAINING

Inspired by the "Shoshin" (初心) philosophy, meaning "beginner's mind," Sho Shin Training at Brainwave emphasizes continuous learning, curiosity, and innovation. This program equips professionals with hands-on experience, expert guidance, and cutting-edge industry knowledge to drive excellence in automation and technology.
